

SAFETY CONCERNS, CLASS CANCELLATION NOTIFICATION POLICY & GUIDELINES FOR A SICK CHILD

Entering and Exiting

The church entrances off Ryan road and 18 mile are boulevards.

- ♥ Please stay to the right when entering or exiting parking lots.
- ♥ There is room at both exits for a right and left turn lane. Please don't exit down the middle. Be considerate of those turning right and stay to the left if making a left turn.
- ♥ At the activity center whether you are parking or not you must go to rear of building and turn left, proceed counter clockwise around the building.
- ♥ If you parked passed the church parking lot entrance and need to return to the church, please continue in a counter clockwise flow
- ♥ Please proceed at a slow speed The speed limit is 10 MPH

After Classes

- ♥ Look in all directions before moving your vehicle
- ♥ Obey the signs posted or painted in driveway
- ♥ Follow traffic cone
- ♥ Listen to traffic Facilitators
- ♥ Do not park in handicap parking without permit
- ♥ **DO NOT LET YOUR CHILDREN PLAY IN THE PARKING LOT.**
PLEASE WATCH YOUR CHILDREN THEY ARE YOUR
RESPONSIBILITY

CLASS CANCELATION NOTIFICATION POLICY

It is your responsibility to check if class has been cancelled. You can check our website <http://www.saintcyrils.org>. it would say "classes cancelled" a decision will be made by 1:00pm day of classes. Normally it says "No Closures" Please look for this before you need it.

OVER

GUIDELINES FOR WHEN YOUR CHILD IS FEELING UNDER THE WEATHER

The following guidelines should be considered when making the decision whether to send your child to class or not.

- **Fever** – if your child’s temperature is 100 degrees or higher, he should remain at home. The child can return to school after he/she has been fever free for 24 hours (without fever-reducing medicine such as Tylenol or Motrin).
- **Diarrhea/Vomiting** – a child with diarrhea and/or vomiting should stay at home and return to school only after being symptom free for 24 hours.
- **Flu** – If your child catches the flu, keep him/her home until symptoms (body aches, high fever, chills, congestion, sore throat and/or vomiting) subside.
- **Conjunctivitis/Pink Eye** – Following a diagnosis of pink eye, the child can return to school 24 hours after the first dose of prescribed medication or when a physician certifies him non-infectious.
- **Mononucleosis** – Keep at home until fever free and able to resume normal activities.
- **Strep Throat/Scarlet Fever** – Your child is not contagious after he’s been on physician-prescribed antibiotics for at least 24 hours.
- **Colds** – Consider keeping your child at home if he/she is experiencing discomfort from cold symptoms, such as nasal congestion and cough. A continuous green discharge from the nose may be a sign of infection. Consider having the child seen by your health care provider.
- **Lice** – To prevent infection: 1) avoid direct contact with the head, hair, clothing, or personal belongings of a person with head lice, and 2) treat affected persons, their contacts, and their households. Do not bring your child to class until they are lice free.

Please call your child’s teacher when they will be absent and obtain any homework they may miss. Thank you.

PLEASE REMIND YOUR CHILD TO WASH HIS/HER HANDS BEFORE AND AFTER CLASS....AND ALSO AFTER USING THE RESTROOM.
